Blessings and Welcome!!

We greet you in love and hope that you are allowing the great unfoldment of YOU to occur with ease and grace as you move and shift energy at a faster pace than ever before.

The intention of Whispers of Spirit is to hold the space of love and oneness in which you can align with and attract the information, the support, the teachers, and friends you need at the exact moment you need them.

As we celebrate our 3rd year, we hope we are achieving this vision of love. We continue to move with the grace of Spirit that we co-create every aspect of Whispers of Spirit with. We are honored and grateful to be in service in this way. We maintain an "open door" policy, in which you can share with us what you would like to see in your publication, expo and events.

Thank you for your support of Whispers of Spirit, we gratefully receive it, and embrace you with unconditional love and support as well.

As we all expand and grow, may we reach out to one another with unconditional acceptance. May we offer our love freely and open up to receive the support and love that is there for each of us. Let each of us serve as a reminder to all that we are not alone, but all one.

Laura Stellmach is Co-Creator of Whispers of Spirit and Creator of From the Arms of the Angels, offering healing and intuitive messages. More information is at www.whispersofspirit.com/laura.html or www.myspace.com/fromthearmsoftheangels.

Faerie Goddess Artwork by Aaron Pyne

Since ancient times many cultures around the world have been in tune with the various nature spirits such as faeries, elves, dwarves, gnomes, devas, and other mythological" creatures. They are the angels of nature. These beings are as real as anything else we experience. To most people in the modern world they are but ancient tales and fantasies. Many people have lost touch with the magic and mystery of the universe around them. Instead we have switched our focus to the left brained tales of science as a way to understand the world around us. As we have turned down our senses, both physical and mental, we have lost the ability to connect with these wonderful beings. From our destruction and disrespect of Mother Earth they have withdrawn themselves from most of humanity. Through opening our hearts and minds and by helping to restore balance in nature we can relearn how to attune to these amazing spirits. They have much wisdom and knowledge that they will share with us about the natural world, healing, spiritual development, living in harmony with nature, and much more. Through attuning your energy with nature and the opening of the heart these wonderful beings will gladly begin to connect with you and help you.
